In addition to deep-cleaning procedures, The Dayton International Airport provides a list of some of the top changes to expect.

Face Masks

All airport employees will wear face coverings whenever in the public areas of the airport. Most airlines are now requiring passengers to wear masks.

TSA

Security checkpoint lanes are wider and longer to allow for appropriate social distancing. TSA is allowing one liquid hand sanitizer container, up to 12 ounces per passenger, in carry-on bags until further notice. For more information go to <https://www.tsa.gov/coronavirus>.

Wash Your Hands

All employees and passengers are asked to wash hands frequently with soap and warm water for at least 20 seconds to help stop the spread of viruses and germs.

Cleaning Protocols

The intensity and frequency of disinfecting hard surfaces and high-touch areas throughout the airport has been increased.

Hand Sanitizer Stations

Additional hand sanitizer stations have been installed throughout the airport for passengers and employees.

Decals

Decals have been placed on the floor and throughout the airport to remind passengers to maintain a safe distance while waiting in lines.

Social Distancing

Employees, guests, and passengers are asked to maintain a safe social distance of 6 ft at all times while at the airport.

Allow for More Time

Travelers are asked to arrive two hours early for their flight to help reduce the number of passengers waiting at the TSA checkpoint at any one time.
